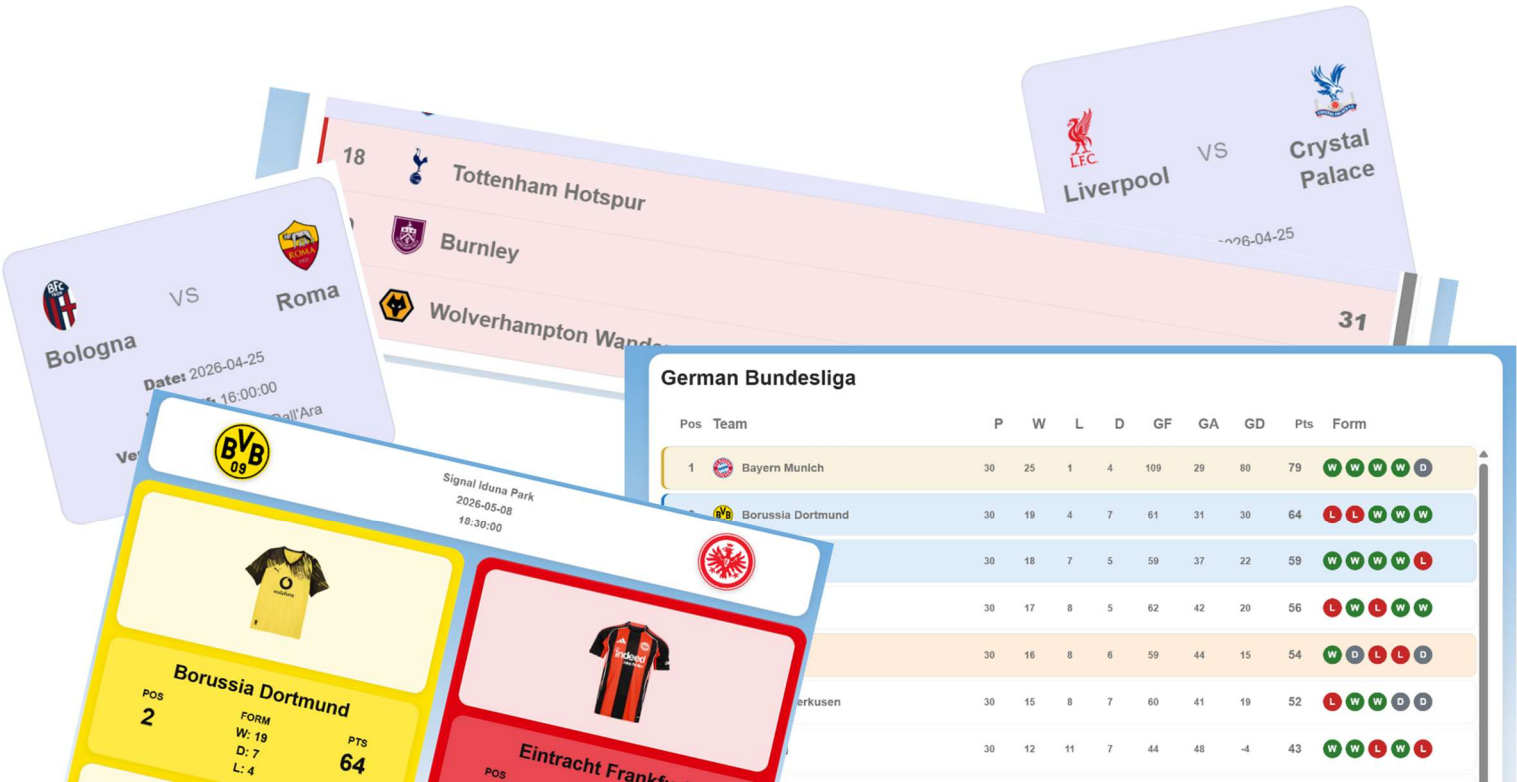
Keep-Me-Up

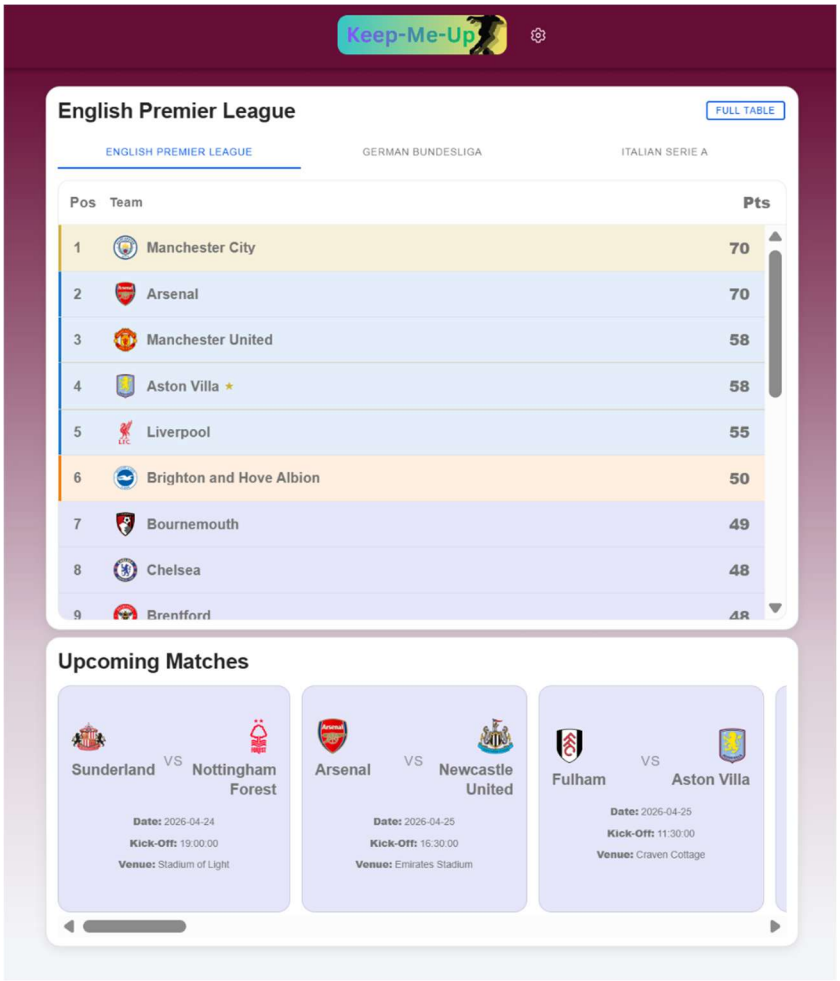
Keep-Me-Up is a football tracking application that allows users to follow multiple leagues, view league tables, check upcoming fixtures, and explore detailed team and match information.

The app is designed to provide quick access to key football data in a clean and user-friendly interface.

Users can:

- View league standings
- Track upcoming matches
- Explore team details
- View recent results and form
- Set a favourite team and customise the app theme





The Home Screen is the main dashboard of the app.

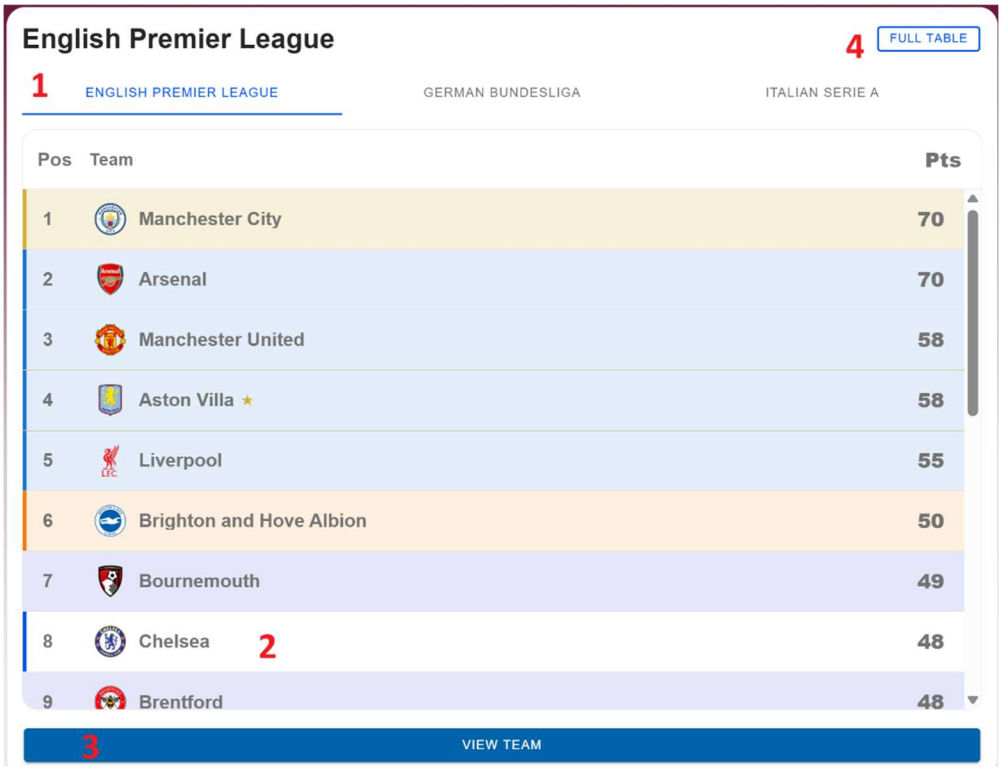
Here, users can:

- Switch between leagues (e.g. English Premier League, Bundesliga, Serie A)
- View the current league table
- Access the full table for more detailed statistics
- Scroll through upcoming matches

  The table displays:

  - Team positions
  - Points
  - Basic standings overview

3. Selecting Leagues and Teams



Users can navigate between leagues using the tabs at the top of the screen.

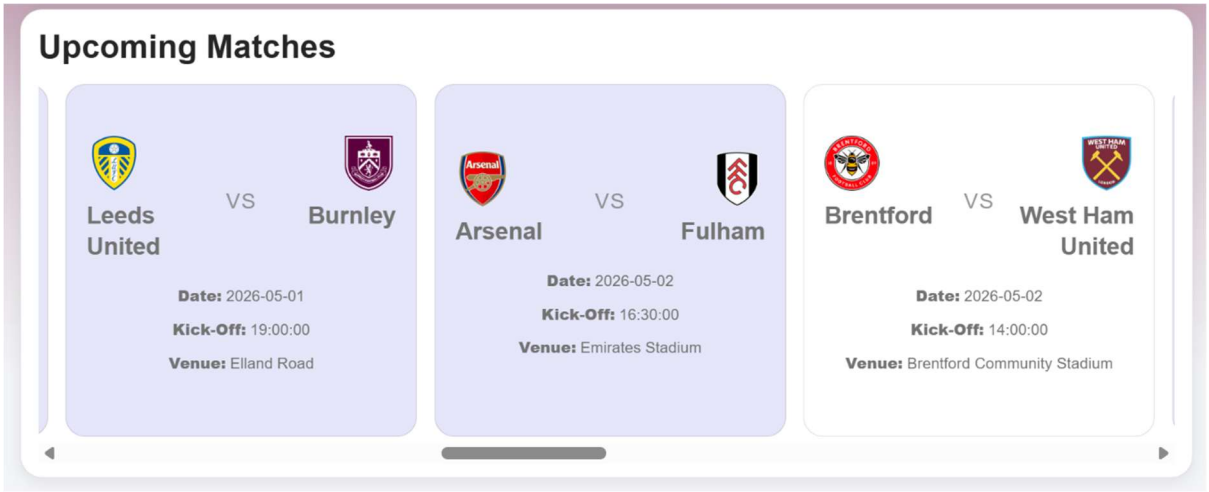
The “Full Table” button provides a more detailed breakdown of the selected league, including additional statistics such as wins, draws, losses, and goal differences.

Selecting a team from the table allows users to view detailed information about that club.

1. Select The league you’d like to view
2. Select a Team
3. View Team brings you to the team page where you can learn about the club
4. Ful Table brings you to a fully detailed League Table

4. Upcoming Matches

The Upcoming Matches section displays scheduled fixtures for the selected league.



Each match card includes:

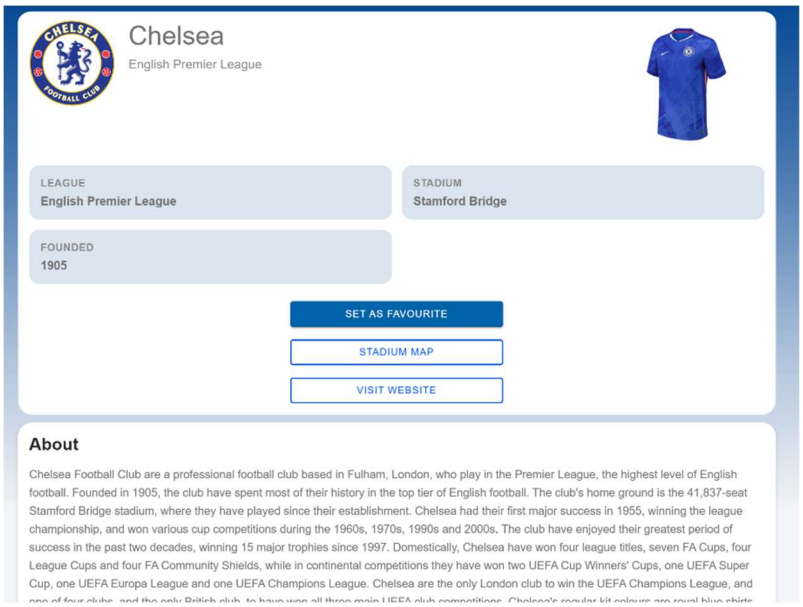
- Home and away teams
- Match date
- Kick-off time
- Venue

Users are able to scroll horizontally to browse through upcoming fixtures.

Selecting a match opens the MatchDay screen for more detailed information.

5. Team Page

The Team Page provides detailed information about a selected club.

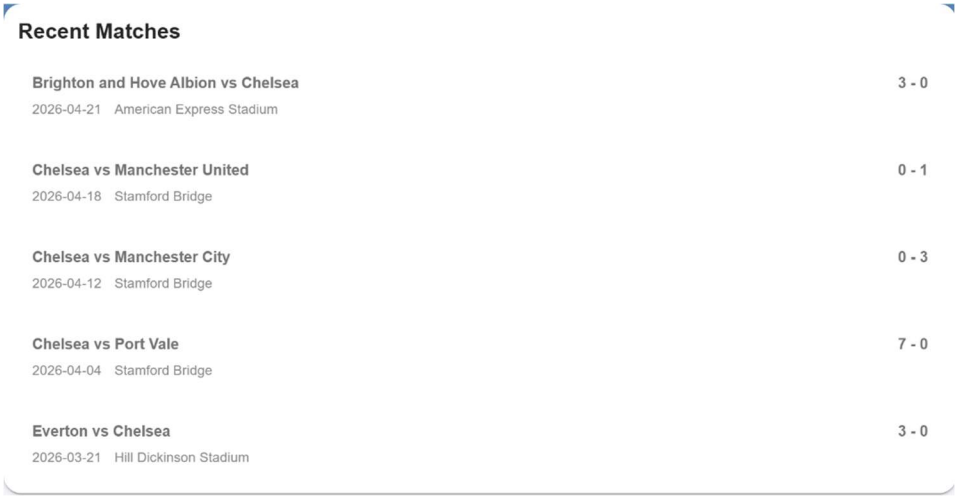


This includes:

- League the team competes in
- Stadium name
- Year founded

Users can also:

- Set or remove the team as their favourite
- Open the stadium location in a map
- Visit the team's official website



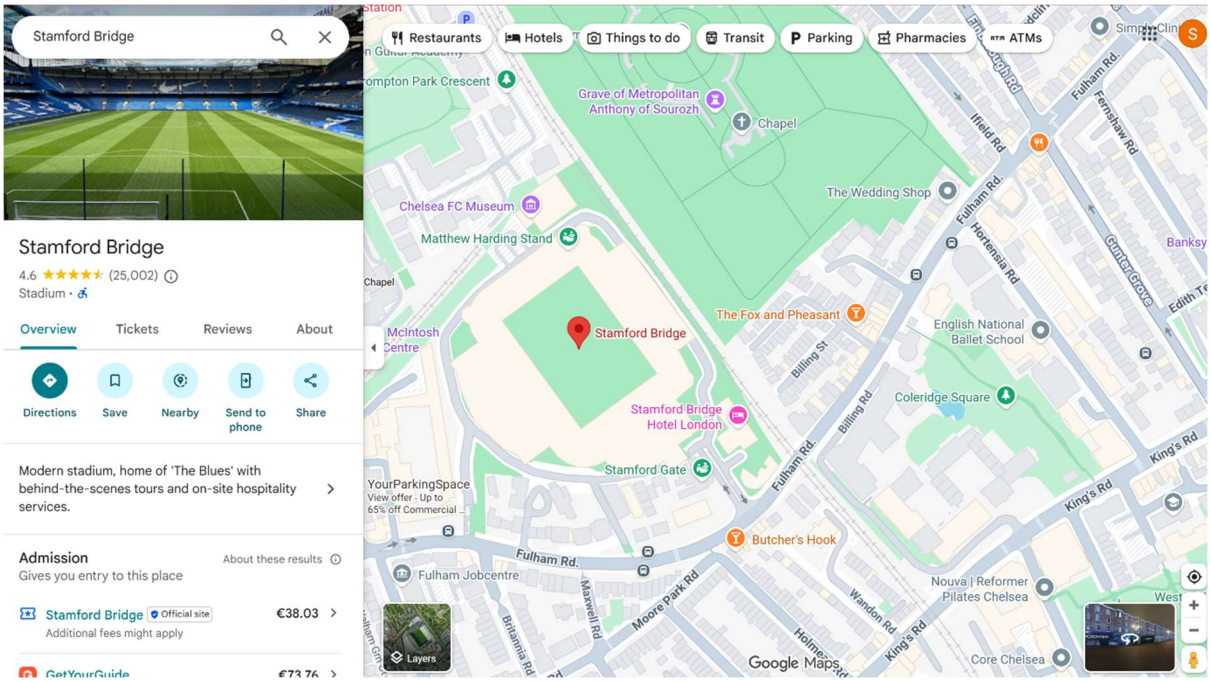
The lower section of the Team Page shows recent match results.
This includes:

- Opponent teams
- Match dates
- Final scores
- Venue information

This allows users to quickly understand a team's recent performance.

7. Stadium Map Feature

The Stadium Map feature allows users to view the location of a team's stadium using an external map service.



When selected:

- The app opens a map in the device's browser
- Users can view the stadium location
- Additional information such as directions and nearby places may be available

This feature demonstrates integration with external applications.

8. MatchDay Screen

The MatchDay screen provides a detailed comparison between two teams.

It includes:

- Team kits and names
- League positions
- Points and form statistics
- Recent match results for both teams

This allows users to analyse both teams ahead of a fixture.

9. League Table (Detailed View)

The Full Table view provides a complete breakdown of league standings.
